Companies Requesting Solmon Report
(Mailing completed to 165 corporations)

G.B. Armstrong
Saskoil
Regina, Saskatchewan Canada

Armstrong serves as chairman of the corporation's Loss Management Committee and was charged with developing a policy recommendation concerning smoking in the workplace. We provided him with the workplace kit and will follow up if necessary.

In a follow-up phonce call, Armstrong said the TI materials very helpful and in addition to information gathered from a number of health organizations, were used to write the company's "mostly voluntary policy." Saskoil's policy prohibits moking in public areas, allows smoking in private offices, and allows employees to determine indivdual smoking/nonsmoking sections in open office areas.

Armstrong said issue is not completely resolved and requested additional information. To no avail, he has contacted CTMC. We will continue to follow up.

RESTAURANT CONTACTS

Following is a cumulative report on restaurant associations and restaurants with which we have been in contact concerning restaurant policies.

New Contacts

Region VII

Bill Langkopp
Louisiana Hotel/Motel Association
New Orleans, LA

Field Staff Contact: Notified of request and will assist with follow up.

Via TI lobbyist Jo Guidry, we met with executive vice president Langkopp to discuss implementing the program in hotel/motel restaurants. Langkopp affirmed his association's willingness to accept the program subject to minor revision of some of the materials. We sent Langkopp samples of program materials for his board members.

We learned from Langkopp that his association formally approved the program 4/7. Implementation is underway.

Pending Contacts

Region I

New England Restaurant Associations
- Massachusetts Restaurant Association
- Connecticut Restaurant Association
- Vermont Hospitality and Travel Association
- Massachusetts Hotel-Motel Association
- Rhode Island Hospitality Association
- Maine Innkeepers Association
- Greater Boston Hotel-Motel Association

Field Staff Contact: Initiated contact and coordinating follow up.

Field staff is working directly with the New England restaurant associations to promote a hybrid version of our restaurant program. We have prepared artwork featuring New England's traditional symbol of hospitality--the pineapple. Each will be personalized

2025853630

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

and printed by each association.

Dennis Dyer has promised us a written proposal as to how the associations want to proceed, along with cost estimates. We have seen nothing since he mentioned that proposal in January.

Region II

Fred Sampson
New York State Restaurant Association
New York, NY

Field Staff Contact: Field staff initiated the request for materials concerning the voluntary program.

Sampson requested information concerning our voluntary program. Subsequently field staff has determined that Sampson does not want to pursue the program at this time. Sampson views implementation of the program as "giving in." Sampson has indicated that he may want to pursue the program in the future.

Nancy Kelly
Executive Director
New Jersey Restaurant Association
Kearny, NJ

Field Staff Contact: Coordinated contact and follow up with field staff and state lobbyist.

We met with Kelly on 10/11/85 to discuss our restaurant program and compliance with the New Jersey law requiring posting of signs indicating whether restaurant have nonsmoking areas or provide adequate ventilation in lieu of a designated area. We drafted language for the restaurant signs that was approved by the association board.

Kelly requested 11,000 fair policy brochures, 1,500 fair policy posters and 20,000 tent cards that have been produced. NJRA, on association letterhead, has distributed information explaining the program and samples, to all restaurants in the state. They have already requested additional materials to meet demand. One restaurant has requested 500 tent cards.

We will receive monthly reports on distribution of resources.

Richard B. Storey
Pennsylvania Restaurant Association
Harrisburg, PA

2025853631

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

Field Staff Contact: Field staff initiated the contact and has agreed to follow up. We have had no reports.

Program brochure has been mailed to approximately 19,000 Pennsylvania restaurants. Storey and field staff are promoting the program to regional associations. Storey has deemed the program very successful. He noted that one restaurant requested 2,000 tent cards and he anticipated having to order additional materials.

We have received none of the monthly reports promised us; we have received only one telephone report since the mailing was done.

Region V

Hank Crawford
Hank Crawford Public Relations
Salem, OR

Field Staff Contact: Initiated contact and requested that program materials be mailed to Crawford, who is our legislative counsel in Oregon. Field staff is preparing for a meeting with association officials who are interested in the voluntary program.

Crawford also represents the Restaurants of Oregon Association. At field staff request, we provided Crawford with table tent samples, model policy and program resources.

The association has determined that use of materials would draw undesired attention to a situation many Oregon restaurateurs prefer to handle privately.

John F. Gordon
Restaurant Association of the State of Washington
Seattle, WA

Field Staff Contact: Field staff coordinated request, which was made as a result of the NRA mailing.

Gordon has requested 6,000 tent cards. Field staff is pursuing program approval and implementation with Gordon.

Gordon reported a mediocre response to the tent cards however he is interested in receiving more information about materials, offering to publicize their availability in his newsletter. Field staff will follow up.

2025853632

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

Region VI

Karen Caputo
Delaware Restaurant Association
Newark, DE

Field Staff Contact: Field staff notified of request for tent cards. Field staff discussed program implementation with association executives and determined that the association would only offer tent cards to members. The determination was made that members are not experiencing any problems concerning the restaurant smoking issue.

Caputo requested 1,000 tent cards as a result of the NRA memorandum. Materials were mailed 08/21/85.

Irene Beardwood, evp of the association, reported a very positive response to the tent cards and expressed new interest in receiving more information about the other materials. We will follow up.

Region VII

Trudy D'Alconzo
Florida Restaurant Association
North Miami, FL

Field Staff Contact: Staff notified of request and is scheduling a meeting with the association.

D'Alconzo, executive secretary of the association, requested 4,000 table tent cards imprinted with their association logo. The materials were distributed at the 09/30/85 association regional meeting.

The association has also endorsed the brochure: "An Employer's Guide to the Florida Clean Indoor Air Act" which includes guidelines on establishing restaurant smoking and nonsmoking areas. We assisted the Florida Chamber in preparing this brochure.

Lois Kostroski, executive director of FRA and president of ISRAE, reported a "decent response" to the tent cards, and expressed interest in meeting with us to discuss the program in its entirety. We will follow up.

Andrea Loyola
Louisiana Restaurant Association
Metairie, LA

Field Staff Contact: Staff notified of request and will assist with follow up.

2025853633

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

Susan Wolfe is no longer with the LRA. The association requested 8,000 tent cards as a result of the NRA memorandum and expressed interest in pursuing the voluntary program.

Via TI lobbyist Joe Guidry, we met with executive vice president Jim Funk, to discuss the program. Funk agreed to implement the program provided some of the program materials are revised and asked us to collaborate with Loyola, the new communications director, on designing "Fair policy" brochures and posters. We also explored the possibility of TI providing an educational seminar and writing an article for the LRA's bi-monthly magazine.

We are following up with Loyola. Use of tent cards still undetermined.

Region VIII

Valerie Bricken
Arby's Roast Beef Restaurants
Tulsa, OK

Field Staff Contact: Notified of request.

Bricken, an employee at Arby's, requested information concerning the availability of "NO SMOKING" tent cards. We provided her with sample table tents and informed her that the materials are provided free of charge.

THe over 70 Arby's in this area have designated smoking and nonsmoking sections. Bricken is awaiting approval from her supervisor to order the table tents.

Oliver Kensey
Steer Inn Family Restaurants
Cushing, OK

Field Staff Contact: Staff notified of request.

Kensey requested 100 table tent cards. Kensey learned of the materials through the Oklahoma Restaurant Association newsletter.

Kensey, whose restaurants have designated smoking and nonsmoking sections, says the cards were very positively received. He will order more as need arises.

2025853634

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

Region IX

John Jamison
Wigwam Resort
Litchfield Park, AZ

Field Staff Contact: Notified of request.

Jamison contacted TI about customer complaints that the dining room doesn't have smoking and nonsmoking sections. There have been no complaints about smoke. Jamison doesn't want to establish separate areas but wants to publicize special ventilation to accommodate smoking and nonsmoking patrons.

We met with Jamison and presented him with a policy to help promote his ventilation system. He's promised to send us feedback. We will follow up.

Penelope Miedaner
Executive Director
Southern Arizona Restaurant Association
Tucson, AZ

Field Staff Contact: Notified of request for tent cards and will pursue the voluntary program with Miedaner.

Miedaner requested a trial batch of 500 tent cards as a result of the NRA memorandum. She has reported limited use of the tent cards. SARA still makes the cards available but also distributes association-designed cards that say "Thank-you for not smoking."

Miedaner said the Tuscon Chamber of Commerce disapproved of the cards. SARA does not want to pursue the program.

Miscellaneous

Colette Coleman
National Restaurant Association
Washington, DC

Field Staff Contact: None required as yet.

We met with Coleman to discuss how to promote the voluntary policy. As a result, Coleman sent a memorandum to all state restaurant association executives announcing the availability of the "Smokers are welcome here" tent cards. Any requests will come directly to us. Coleman also agreed to refer to us any state association or restaurant contacting NRA about a smoking problem. As a result of the NRA mailing,

2025853635

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000

requests have come from several states.

Incidentally, we collaborated with Coleman to set up meeting between our member companies in Japan and an executive with the Japan Food Service Chain Association and president of KFC-Japan Limited.

Coleman has asked us to submit a rewrite of their restaurant brochure entitled "No-Smoking Sections - A Restaurateur's Guide for Establishing A No-Smoking Section." The NRA offers this publication to members requesting information/advice on restaurant smoking.

We will submit our rewrite by April 17.

Richard Crawford
National Restaurant Association
Washington, D.C.

Field Staff Contact: None required as yet.

Crawford provided us with information concerning a study commissioned by Red Lobster in Florida in an attempt to avert Florida proposal which would have required restaurants to physically separate smokers and nonsmokers. The study found that the cost of compliance per the approximately 60 Red Lobster units would be $47,000.

Crawford is investigating other chains that may have similiar reports. We will meet with him in early spring to discuss a joint TI-NRA economic impact study, along with other surveys of restaurateur/patron preferences.

Completed Contacts

Region VI

Patrick Gafney
Hamburger Hamlet Restaurant
Washington, DC
Field Staff Contact: None required.

2025853636

Source: https://www.industrydocuments.ucsf.edu/docs/flcl0000
